PROCESS

Payment terms

LC/DLC

The market prices have increased due to the banking operational and administrative cost required to work with the letters of credit.

The client must pay the costs of tariffs to enter the financial instrument to the seller's bank.

The seller issues Proforma Invoice and the customer issues the LC/DLC to the seller's bank.

The sales of the products are made only under the FOB incoterms condition.

Cash & Cash

The client and the vendor make a representation contract in the Stock Exchange market.

The client must transfer the money to the seller's account against Proforma Invoice for the reference price.

The seller operates as a broker on the Stock Exchange to buy the grains under FAS incoterms.

The customer will pay the difference in price at the time of purchase of the title deeds of the products.

The client must pay the tariff costs + insurance + cargo handling at the port + freight.
